### **NEFC as a Denomination**

Even though NEFC is a Fellowship of Native churches, in the eyes of the Government it is a religious denomination because of its incorporation. NEFC does not emphasize its identity as a church denomination but would rather be looked on as a Fellowship. There is no religious hierarchy in NEFC because NEFC believes in the full autonomy of its membership churches. The NEFC administration can approach a member church only when there is a doctrinal difference or a violation of a by-law which each member church has agreed to follow. (Issued by NEFC)
